

NEW IRON BEDS

A neat WHITE IRON BED. A good Spring and a fine Felt Mattress make an ideal Summer bed outfit. The open work of the bed, which allows the free circulation of air, and the felt mattress which is the coolest and most sanitary mattress made make them very desirable for Summer use. We have beds to suit all tastes and fancies, also a full line of couches and cots.

REPUBLICAN
CAMPAIGNPuna Plantation Is
On Contract
Basis.Iaukea Appeals to Home
Rulers to Become
Democrats.Banana Returns Fall Off — Golf
Club Organized — Notley
Widow's Dower.

HILO, Sept. 16.—While on the Island of Hawaii, Delegate Kuhio upon the advice of the Republican leaders here, decided to remain after the Territorial convention and make campaign hay while the sun shines. He realizes that it is the early bird that catches the worm, and proceeded to sound the first clarion note in the political barnyard. After resting up Saturday and Sunday after the convention, in company with John Wipe, Archie Mahaula and D. Kalauokalani, Jr., the Delegate went into Puna, making speeches at Kopoho, Pahoa and Kalapana on Monday. Tuesday night a large meeting was held at Olapa, and Wednesday night found the party at Walauea. Bright and early Tuesday morning a start was made for Laupahoehoe and Hamakua, en route at various places along the way the Hawaiians were gathered to see and hear from the Republican candidate and the other spellbinders.

They held a meeting Saturday night at Walpio, which was largely attended, and then proceeded through Waimea to Kohala. Prince Cupid will continue his journey through South Kohala, Kona and Kau this week, catching the Mauna Loa next Monday morning at Kailua. Reports received of their progress is encouraging.

PUNA TO CONTINUE.

Wm. Pfothenhauer, in company with his attorney, A. Lewis of Honolulu, arrived on the Maui last week and up to the time of his departure on Friday spent most of his time looking over the Puna plantation, of which he has been appointed receiver. Despite the rumors of the abandonment of the place, Receiver Pfothenhauer found the plantation in very fair condition. Owing to the scattered condition of the fields, the property will never prove a profitable plantation under corporate management, but Mr. Pfothenhauer believes it can be successfully operated by the contract system to small planters. Already contracts have been let for the care and cultivation of the cane now growing, which presents a fine appearance and promises a good crop. There are 150 laborers, mostly Chinese at Kapoho and perhaps a hundred at Pahoa. Mr. Pfothenhauer finds it impossible to spend his entire time in Puna, and during his absence has put Charles Weatherbee in charge. Mr. Weatherbee has been the plantation bookkeeper for many years, since the inception of the Puna Sugar Co., is well acquainted with the fields and will make a capable assistant to Mr. Pfothenhauer. Messrs. Pfothenhauer and Lewis returned to Honolulu on Friday's Kinau.

DEMOCRATIC CAMPAIGN.

The Democratic convention for the First district at Hilo nominated Ollie T. Shipman for Senator and David Ewaliko, Henry West and J. M. Komoko for Representatives. C. M. Le Blond was chairman of the convention. Curtis P. Iaukea, Democratic candidate for Delegate to Congress, addressed a crowd at a band concert in Hilo after coming in from the country. His main argument was an appeal to the voters to abandon the Republican party and administration and vote for a new regime, which he promised would be just as good if not better.

He stated that the governing power was still maintained in the hands of the few, and that Governor Carter was no less than an autocrat, assuming the right to demand resignations of the heads of departments in advance of their appointment. He claimed this was un-American, unwise and contrary to either Republican or Democratic doctrine. He charged this as being political chicanery and not possible on the mainland. He said the effort of the administration officials to compel self-respecting citizens to become Republicans in order to secure a dollar for a day's labor on the public improvements of the Territory was something unheard of. This he called "dirty politics."

He made a strong appeal to the Home Rulers to join the Democratic party, where he said they would have an equal right in the government of the party and of the country. He extolled the advantages to be gained from being in the party opposed to the administration, and assured his auditors that if the Democrats failed of election this November, their fight was not without its results. "If we succeed," he said, "in getting the Home Rulers to join the Democratic party, then we will have done something which the Republicans never could have accomplished. It re-

mains now for the Democratic party being organized within the Territory to take its proper place as a political factor in the affairs of the Islands. If there ever was a time in the history of this country when citizens should stand up for their rights and see that the Territory was not mismanaged, it is now." He urged all good Democrats, Home Rulers and even Republicans who do not approve of the Governor's actions, to rise up and overthrow the remnants of the oligarchy and its misrule.

GENERAL NEWS.

Shippers of bananas find the returns during July, August and September less satisfactory than at other seasons owing to the fact that the coast cities are filled with California fruits. At the present time there are sales made here in Hilo at good prices, the grower taking no risk and getting his cash on delivery. The plan is adopted, however, only in case of extra good fruit and large bunches.

The Golf Club has adopted the by-laws governing the Hilo Tennis Club. The initiation fee was fixed at ten dollars for gentlemen and five dollars for ladies. The dues will be ten and six dollars per annum respectively for gentlemen and ladies. The links over in Puueo are rapidly being put into shape and will shortly be ready for use.

Master Dillon, son of Mr. and Mrs. J. K. Dillon of Pepeekeo, left on the Enterprise to enter school at Oakland. He is only eight years old and makes the trip alone. He will be met in San Francisco by Mr. Dillon's sister and will remain in her charge until his return to the Islands.

The steamer Enterprise took no sugar for the coast this trip. She had as passengers: Mrs. R. Newman, mother of Mrs. H. J. Lyman; Mrs. W. G. Walker and two children; Mrs. Franklin Gasty, Mr. and Mrs. W. S. Ward and two children, H. L. Pierce, Henry Dillon, Mrs. Fred Breyman and son.

W. L. Madeira, R. T. Guard, Don Bowman and C. W. Wright form a party who will leave on Saturday for a two weeks' vacation at Adna Hou on the slopes of Mauna Kea. It is an ideal spot for campers and is said that game is plenty.

Company D will give a sham battle at Hooluku Park on the 25th inst. and in addition to the usual program in such affairs there will be a shelter tent drill, something entirely new to Hilo and said to be extremely interesting.

Tenders are asked for the construction of the Hilo Armory.

It is said that when Port Arthur is captured by the Japanese a Japanese theater will be built on the lot at present occupied by the residence of B. H. Brown on Volcano street.

Judge Parsons on Friday morning handed down his decision in the Notley will case, granting the prayer of the widow's petition for the admeasurement of dower, and appointing E. A. Mott-Smith of Honolulu, special Master in Chancery to admeasure same.

At the annual meeting of the Catholic Ladies' Aid Society at the Sisters' School, the following officers were elected for the ensuing year: President, Mrs. W. H. C. Campbell; Vice-President, Mrs. G. F. Affonso; Treasurer, Mrs. R. A. Lucas; Secretary, Miss M. Canario.

Dr. Holland was called to Papaikou on Monday to attend John Kapaha, a driver for the Volcano Stables Co., who was badly injured in a runaway the day before. A native woman who was with him also sustained injuries that were painful but not dangerous.

Surveyor A. B. Loebenstein has been authorized by the Board of Agriculture and Forestry to plat the proposed forest reservation as recommended by Forester R. L. Hosmer, extending from Hilo to Hamakua.

Dr. John J. Grace expects to be a passenger in the Mongolia to the coast on the 24th.

There was surprise expressed at Kaulokalani, the beautiful residence of Mr. and Mrs. E. N. Holmes, by more than a hundred guests when they found they were to celebrate the tenth anniversary of the wedding of their host and hostess. The fact became known only when the decorations of the large lanai came in view. Fruit punch was served throughout the evening and shortly before midnight ices and cake were served the guests. A wedding cake was cut by the hostess and passed by her to the guests. The ring fell to Miss Florence Scott.

Crying for Help

Lots of it in Honolulu But
Daily Growing
Less.

Backache is one of the first indications of kidney trouble.

It is the kidneys' first cry for help.

Heed it.

Doan's Backache Kidney Pills are what is wanted.

Are just what overworked kidneys need.

They strengthen and invigorate the kidney; help them to do their work; never fail to cure any case of kidney disease.

Read the proof from a Honolulu citizen.

Mr. Charles Comey, of Cyclomere street, this city, one of the many persons who have tried Doan's Backache Kidney Pills with great advantage, relates his experience thus: "I have been a hack driver for a number of years, and this is an occupation which, through exposure to weather and much jumping up and down from the vehicle, one is particularly liable to kidney complaint. I suffered myself from a lame back for a long while, and in my anxiety to get rid of it tried several things which did not reach the root of my trouble. An advertisement acquainted me with what grand work Doan's Backache Kidney Pills were doing, and I got some of them at the Hollister Drug Co.'s store. I used them and with very much profit, for they relieved my back wonderfully. Doan's Backache Kidney Pills are for sale by all dealers or sent by mail on receipt of price, 50 cents per box, by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands.

Remember the name Doan's and take no other.

GREAT CURTAIN SALE

33 1-3 PER CENT
REDUCTION.

There is a world of truth in the dictum attributed to Gladstone that nothing except the MINT can make money without advertising.

All the same, some folks may imagine that advertising is an expense which must be borne by customers.

But no inference could be more fallacious.

Paradoxical though it be, we would be unable to sell at our well-known close margins were it not for the large sums we spend in publicity.

In other words, liberal advertising begets large sales, and large sales admit of SMALL PROFITS.

This CURTAIN SALE is not advertised to make money. OUR OBJECT IS to clean up and close out our present stock of CURTAINS if a GENUINE REDUCTION of 33 1-3 PER CENT will do it.

STORE CLOSED MONDAY ON ACCOUNT OF HOLIDAY.

Pacific Import Co., Ltd.

"Down where the Wurzburger flows."

IT CREATES A SENSATION OF PURE DELIGHT

Wurzburger is our new bottled beer. A little darker than "Primo" and especially good for home use. It has all the strengthening properties of malt extracts and is far more palatable. Order Wurzburger from your dealer or direct from the brewery.

THE TEACHING OF
DOMESTIC SCIENCE

We note with satisfaction that in many of our best schools for girls, Domestic Science is becoming a prominent feature. That which should have come first, in the education of women, is coming at last. Better late than never! The next generation may see women everywhere educated on lines that will make them more efficient as women and not as rivals of men.

The complaint is made and insisted upon, that the system or lack of system heretofore prevailing in the education of women, especially in what is called the "higher education," does more harm than good, considered with reference to the general welfare of the nation. It is claimed, with some show of fact and reason, that this higher education not only fails to produce good home makers, but that it also actually tends to drive women from home life altogether. It is largely responsible for the "new woman," to whom fame is more attractive than family, and the clatter of the club more alluring than the prattle of children. Her ambitions and high-flown college education have given her no aptitude for domestic life; on the contrary, they have led her away from the rich fields and fruitful sphere of her birthright, to wander on barren uplands and waste her life in trying to do what men as a rule can do better and with far less sacrifice.

The home is the corner-stone of the state. More homes and better homes, might well be inscribed upon the nation's coat of arms. Any movement, therefore, for the uplifting of the ideal home, and for the improvement of it in practical ways, should be welcomed and encouraged. Domestic Science aims to do this and is doing it. We are glad that it is finding a place, and a prominent place in the college course for women. While it is taking nothing from the "height" of the education offered, it is adding very largely to its breadth and stability.

Domestic Science, as now developed in our best schools, is not a fad or a fanciful fringe on the scholastic gown. It is not simply cooking and sewing, learning to make bread and button-holes; it is a real department of study as well as practice; a science which calls upon a dozen other sciences for the best fruits of their investigations; an art which brings to the use and enjoyment of every-day life the best products of man's imagination and invention. The name that has been given to it is not pretentious. The mastery of it, in principle and practice, is no child's play.

While we cannot admit that any scheme of education for our daughters can be too "high," from an intellectual point of view, we are convinced that a purely intellectual training is not the one best calculated to develop womanly women. The social, the emotional, the devotional elements of a woman's nature are the most potent factors of her life, for good or evil to herself and to her race. More than man does she needs many-sided culture, that she may be prepared for the many interests and issues of life to which she will be related. But she needs also, as truly as do an engineer or a physician, to specialize. She needs a professional as well as a general education. Home making should be considered and prepared for as a profession. It is a very important and difficult one. Economic, sanitary and domestic conditions in general are more complex than in the days of our grandmothers; their self-acquired mastery of home arts would not at all fulfill the needs of our times. While some of the mechanical work and manual drudgery of their day has been eliminated from the home, many new conditions have been forced upon it. A house mother in our day need not learn to weave and knit and make tallow dips, but she should know enough to protect her family from yellow fever and typhoid fever. She should know how to make the best and most beautiful home that can be made with the means at her disposal. She should be prepared to meet and solve the many problems, scientific, aesthetic, hygienic, economic, which constantly arise in the field of her activity. For this she needs special training, and that training she may now have at school in a well-managed department of Domestic Science.—The Living Church.
